

Is presenting the present Catalogue to the public, the Proprietors do not consider it necessary to say more to their old friends and patrons than that, in future, their business will be conducted in a manner worthy of the long-established reputation of the Linnacan Botanic Nurseries, and that no exertions will be spared to make every transaction satisfactory, in all respects, to those with whom they may have dealings.

Those unacquainted with this Establishment, we would refer to the fact that these Nurseries were established in 1732, and have continued uninterruptedly in the same village, and in the possession of the same family, since that time—a period of One Hundred and Thirty one years—longer, we believe, than any other business establishment, of any nature whatever, in this country, has existed under the same name; that from this Establishment nearly all the great European Nurseries have obtained their collections of American Trees and Plants, and that it has, at different times, supplied the Royal and Imperial Horticultural Establishments of Great Britain, Russia, Austria, Prussia, Egypt, Mexico, and numerous less important States.

We believe that no establishment which does not combine enterprise and energy with perfect accuracy, could so long and successfully have retained its reputation and the confidence of the public.

In arranging the present Catalogue, we have thought it unnecessary to add descriptions to the varieties of fruits, (with the exception of a few of the newer and less-known kinds.) as such information is now easily accessible to all at very small expense, either in Horicentural Periodicals, the Reports of Pomological Societies, or in Downing's Fruit Book, and other kindred works.

We would refer also to the large Descriptive Catalognes which have been gratuitously disseminated from this Establishment, through all sections of the Union, at large expense for a long series of years.

We need scarcely state that our Catalogues are not made up from books only, but that we possess every article comprised in them. Much pains is taken in procuring new varicties, as soon as they are proved worthy of cultivation, at the same time that care is exercised not to offer to our customers varieties only known for their novelty before their qualities shall have been fully tested.

Within a comparatively short time, a large addition has been made to the amount of land under cultivation in our Nurseries, by the purchase of an extensive plot of excellent farm land, very favorably situated; the trees grown on which are now offered for sale.

The natural strength and fertility of the soil of this locality is such, that it ensures a most healthy and vigorons growth to the trees, which seem to become hardened and confirmed as they progress, and is devoid of that rank, stimulated, and unnatural exuberance which trees so generally exhibit when reared on lands that have never been subjected to previous culture. The Trees thus cultivated, after making at first a rapid development, are so sensitive to cold, that the winter casily affects them, and they gradually pine away till they become feeble and unproductive.

The climate of *Long Island* being subject at all times to the boisterous winds of the Ocean and the Sound, seems to be particularly favorable to perfecting the hardihood of Trees. The vaccillation of ulternate cold and mild periods during the winter, accompanied by the frequent freezings and thawings to which trees are here subject throughout all stages, prepares them for the endurance of the utmost degree of cold and rigor incident to the most northern latitude; it being found that trees, like men, become much more hardened in a chargeable climate than in one regularly cold where the constitution is not subjected to trials.

It is doubtless from this cause that the Long Jshind trees, with which New England has been generally supplied, and also those which have been sent to the coolest regions of the West, have been found to better withstand the severest winters, than those which have been obtained from other lacalities. Indeed it can be readily realized that trees so robust and hardy, and yet so vigorous, must possess a great superiority over those grown in localities where the increary sinks each year to 10° and 20° below zero during a very prolonged winter, thus retaining the trees in a frozen, torpid and death-like state for many months, freezing and bursting the increary sinks each year to 10° and 20° below zero during a derived from the fatal experimence of recent winters at the West, to which may be superadded the inconsiderate use by many nurseries of unsuitable stocks for budding and grafting, and especially of the comparatively tender. Mazzard stock for Cherries, instead of the hardy Mahaleb, the latter being much better suited to the North and West.

All the Trees which we offer are in the most healthy and vigorous state, and will be supplied at the rates named in the present Catalogue; and it may be taken as a rule that we will

SELECT CATALOGUE

Fruit & Ornamental Trees, Shrubs, &c.

PRINCE & CO., Flushing, L. I.

For Preface and General Remarks see inside of Cover. aboth

APPLES-PYRUS MALUS.

Standard Trees of usual size for Orchards, 25 cents.

of larger size, 4 to 5 years grafted, 37 cents. • •

very large, 6 and 7 years grafted, 50 cts.

N. B.—The two last-named sizes are such as are seldom obtainable from Nurseries. Dwarf Trees, 35 cts., and extra size and age, 50 cts.

The following varieties are a selection of the most estimable, and exclude a large number of comparatively worthless kinds still found in many catalogues.

Class 1.-SUMMER VARIETIES.

Benoni, very fine. Blinkbonny, very fine, 50 cts. Garretson's Early, very fine. Bohannan. Buffington Early. Corse's Favorite, fine, 50 cts. Early Harvest. Early Joe. Early Pennock. Early Red Margaret.

Early Strawberry. Golden Sweet. Klaproth. Large Yellow Bough. Primate (true). Red and Green Sweet (mon-Summer Russet. strous). Red Astrachau.

Sinequanon. Summer Bellflower. Summer Pearmain (Amer.) Summer Pippin-Sour Bough. Summer Queen. Summer Rose. Williams' Favorite. William Prince. (Lond. Hort Soc.)

Class 2.—AUTUMN VARIETIES.

Autumn Bough-Fall Bough. Boxford. Cooper (Ohio). Doctor, or De Witt. Drap d'Or-Orange Pippin. Fall Pippin. Gravenstein. Hawley-Dowse. Lowell.

Lyscom, Maiden's Blush. Mangum. Pomwater Sweet, finest baking. Sweet, Jersey. Dver-Pomme royale, Porter. Pumpkin Russet (Sweet R't.) Sweet, Superb. Rambo. Sweet, Wood's. Reinette Blanche d'Espagne.

Richard's Graft. Scarlet Nonpareil. St. Lawrence. Sweet, Pumpkin-Lyman's Pound Sweet.

Class 3.-WINTER VARIETIES.

Bailey Sweet. Baldwin. Bellefleur, Yellow. Carthouse, Gupin. Red Komanite, of Ohio. Chandler. Cogswell. Cumberland Spice. Dickskill. Domine Dutch Mignonne. Equiptelev. Fallawater. Flower of Kent. ering, new, 50 cts.

Class 4.—FOR PRESERVES AND ORNAMENT.

25 cts., except those noted.

Blood Red Crab. Siberian Striped Crab. Manning's Siberian Red Crab, Siberian large Yellow Crab, 50 ets. Transcendant Crab, finest of River's Double Flowering, 50 ets. Siberian Large Red Crab. all, 50 ets. Siberian Small Red Crab. Chinese Double Red Flowering,

Rejected Apples.—The American Pomological Society have published a list of 125 rejected varieties, many of which, notwithstanding, are still offered for sale. Purchasers should look well to this important point.

PEARS--PYRUS COMMUNIS.

Note .- There is never any Pear Blight or Sup Blight on Long Island, and the trees are never injured by the winter.

The stock of Pears is the finest in the Union, and the prices low for the quality, and we can supply the leading and most esteemed varieties on both Pear and Quince. Such as do not succeed on the Pear we can supply on the Quince, and contrariwise.

SELECT FIGS-FIGUIERS.

The culture of this delicious fruit has recently become an object of particular attention, and the Trees require no more care or protection in winter than the delicate kinds of Grapes, and can be grown at Baltimore, and south of it, in any quantities for market; and we may soon expect the markets of New-York, and other Northern cities, to be supplied from the more Southern localities. The Trees are exceedingly productive, and produce two regular crops in a season. We have rejected a number of varieties, such as Cypré, Clementine, &c., which have been found the least worthy of culture.

Those marked $\frac{1}{2}$, 35 cents. Those not marked are 75 cents. When a dozen are taken of 6 variaties, 2 each, the price will be \$4 50.

ł	Black	St.	Mie	hael.

1.1

POMEGRANATES-GRENADIERS.

This fruit requires in this latitude that the trees should be well bound with straw in winter, or have a temporary frame of boards over them. All produce fruit except the doub'e flowering varieties.

CURRANTS-GROSEILLER A GRAPPES.

Any number less than 6 will be charged at the retail price; and any number between 6 and 12 will be charged intermediate between the retail and the dozen prices. Extra large size bushes, 3 and 4 years old, can be supplied at a moderate advance in price.

¹ Currants are frequently offered at very low rates for 1 year plants. If these are wanted, we can supply them at reduced rates. The prices below are for plants 2 to 3 years old.

RASPBERRIES-FRAMBOISIERS.

All the varieties are red except those designated otherwise, and all mature their fruit in July except the Twice Bearing kinds, and they produce a second erop in September or October. In order to have an ample crop of antunnal fruit, it is necessary to prune off the old shoots entirely in February or beginning of March, as the auturnal fruit is produced entirely on the shoots of the same year. There are no Monthly Raspberries ; but only Twice Bearing ones. The leading varieties can be supplied by the thousand at reduced rates. N. B.—Any number less than a dozen will be charged higher. A single plant being charged at one-eighth of the price per doz.

GOOSEBERRIES-GROSEILLERS EPINEUX.

 $\mathcal{E}_{\mathcal{F}}^{\mathcal{F}}$ The first four vaneties named below are all of American origin, and are not subject to mildew; they do not, however, compare with the English varieties in size, although, from their wonderful productiveness, they produce greater crops.

In consequence of the almost universal difficulty from mildew experienced with the English Gooseberries, we have discontinued the culture of a great many varieties, and can only supply them in limited quantities.

GRAPES.

A Special Priced Catalogue is published, comprising all the finest European and American Varietics. Our collection contains about 400 kinds, being a greater variety than is to be found in any other establishment.

STRAWBERRIES.

A Descriptive Catalogue is published, comprising Select Assortments of the most splendid and estimable Varieties, including all new ones of merit, both foreign and native, with a *Rejected List*, and Directions for Culture. Our collection of Strawt berries embraces some 300 kinds, and is now the most extensive either in Europe or American. Descriptions of a large number of Varieties can be found in Patent Office Report for 1862.

SPECIAL ASSORTMENTS OF SMALL FRUITS.

SCIONS FOR ENGRAFTING AND CUTTINGS.

- Scions of all kinds of Fruit Trees, suitable for grafting, will be supplied when 40 or more kinds are ordered, more or less of each, as convenient to us, at 25 cents per parcel, or a 50 cents per dozen grafts of each variety where the price of a tree does not exceed that sum (50 cents); but where it does, the same price will be charged for the dozen scions, or for a parcel where the kind is very rare, as for a tree of the same kind. When a large number of scions are wanted, of the leading varieties, they will be supplied at \$1 50 per 100; or at the following rates per 1000, all correctly *labelled* : Apples, \$5, Pears, \$6, Cherrics, \$6, Plums, \$10.
- Scions of Anger's Quince, for budding Pears on, \$1 50 per 100, and \$10 per 1000, and Scions of the plentiful kinds of Currants, Gooseberries, Raspberries, Berberries, Mulberries, Poplars, Willows, Altheas, Roses, and all other Trees and Shrubs that will grow from cuttings, \$2 50 per 100 and \$20 per 1000, and Figs and Pomegranates \$5 to \$8 per 100; but no quantity is sent amounting to less than the price of a Tree or Shrub of the same kind. Scions of the eight finest species of Osiers, most celebrated for baskets, &c., \$1 per 100 and \$2 to \$5 per 1000. It is better that such orders be sent in the fall or winter ; and the scions can be forwarded by express if so ordered.
- Scions of Grapes, of a number of the finest kinds, can be supplied if applied for in senson, at from §4 to §8 per 100, or in less quantities; but in no case will scions of any variety be sent to a less amount than the price of a vine; and of the very rare varieties three eyes, and of others, six eyes of any one variety will be considcred equivalent in value to a vine. Scions of Isabella, Catawba, Clinton, and several other varieties §2 per 100, or §8 to \$12 per 1000.
- ORANGE, LEMON, CITRON, SHADDOCK, and LIME TREES, and all other GREEN-HOUSE TREES and PLANTS, can be supplied at reasonable rates.

.

Ornamental Department.

ALC ADDRESS

SELECT DECIDUOUS ORNAMENTAL TREES.

The following comprise a Select Assortment of the most beautiful and estimable species, which our long experience has enabled us to arrange with precision. The inferior species we have omitted.

We have divided them into four classes. The first class comprises those of majestic growth, which attain great stature and ample development; the second class those which attain a medium size : the third class, these of low stature ; and the fourth class, such as are comparatively of slow growth, requiring a long period before they attain the size of a small tree, and which, therefore, it would be more appropriate, in ornamenting grounds, to rank among large Shrubs.

The prices stated are for trees of fair size; but where extra harge-sized trees are desired for Streets, Avenues, &c., in order to impart immediate ornsment, such can be supplied at proportionate rates, varying in height from ten to twenty feet, of many of the most estimable species.

For Amygdalus, Carya, Castarea, Diospyros, Juglans, Mespilus, Morus, Prunus, Pyrus, &c., see Fruit and Nut Trees.

EVERGREEN TREES.

Besides those enumerated in the following list, we can supply specimens of a large number of the newest and most rare Evergreens, of which, however, our stock is still limited.

The prices affixed below are for fair-sized trees,

Of most of the varieties, however, we can furnish extra large trees for immediate ornament for Parks, Lawns or Cemeterics, at proportionate prices, thus saving several years to the purchaser.

PÆONIES.

A special Descriptive Catalogue is published of our unrivalled collection of this magnificent class of Flowers, comprising about 125 varieties of Tree Pæonies, and 250 varieties of Herbaceous Pæonies.

SPLENDID BULBOUS FLOWERS.

Of this class of Flowers, so indispensable to every garden, in order to impart beauty in the early spring, our collection is very large. Not only do we import largely every year, but the assortment of Bulbs grown in our own gardens is very extensive. A separate special Catalogue of Bulbs (No. 9) will be sent to applicants. All choice varieties of the following species can be supplied at very low rates :--Hyacinths, Tulips, Japan and all other Lilies of 70 species and varieties, Crown Imperials, Fritillaries, Bulbocodium, Jonquils, Polyanthus Narcissus, Double and Single Narcissus, Crocus, Gladiolus, Snowdrop, Snowflake, Iris, Ornithogalum, Scilla, Allium, Ranunculus, Anemone, Cyclamen, Amaryllis, Ixia, Lachenalia, Zephyranthes, Oxalis, Gladiolus, Antholyza, Alstræmeria, Arum, Colchicum, Brunsvigia, Calochortus, Crinum, Dens Canis, Feraria, Hæmanthus, Pancratium, Tuberose, &c., &c. Select Roots of Hyacinths and other Bulbs, suitable for winter blooming in the house, can also be supplied.

POLYANTHUS, COWSLIP, PRIMROSE AND AURICULA.

We have made this lovely Family of Flowers a speciality, and have concentrated above 150 named varieties from England, France and Belgium, of which we will send a *Written Catalogue* of them to amateurs who may desire it.

HERBACEOUS FLOWERING PLANTS.

Of this class of plants our collection is very rich and extensive, and new acquisitions are frequent and numerons. Our present collection comprises not only all those usually found in other Catalogues, but many rare species and varieties which are not in any other American collection, all of which will be supplied at the lowest rates. The assortments of the following are very extensive :--Carnations, Picotees, Phlox, Iris, Chrysanthemum, Verbena, Hemerocallis, Double Hollyhock, Polyanthus, Primrose, Cowslip, Auricula, Daisies, Funkia, Lychnis, Pansies, Hibiscus, Ledum, &c.

SUMMER FLOWERING PLANTS, FOR BEDDING AND BORDERS.

A very extensive and select assortment of the most rare and beautiful species, many of which are entirely new.

GREENHOUSE PLANTS.

Assortments of the Camellia Japonica, Chinese Azalea, Fuchsia, Geranium, Achimenes, Nerium, Cineraria, Myrtle, Orange, Lemon, Citron, Acacia, Calceolaria, Passiflora, Gloxinia, Gladiolus, Amaryllis, Cactus, Erica, and of all other desirable genera, will be supplied at the lowest rates.

FRUIT AND ORNAMENTAL TREE SEEDS, ETC.

Apple, Pear, Peach, Cherry, Plum, Apricot, Quince, Grape and other Fruit Seeds, can be supplied in quantities. Also Seeds of Pines, Spruces and many other Evergreen Trees, and of many Deciduous Trees and Shrubs, and Flowering Plants. We have during the past year supplied the United States Department of Agriculture with a quantity of Tree Seeds, for the use of our Ministers and Consuls abroad. Orders for any of these should be given, if possible, in advance of the season for obtaining them.

AMERICAN SEEDS AND PLANTS FOR EUROPE.

Collections of Seeds of American Forest Trees and Shrubs, and of rare and beautiful American Plants, will be supplied, suitable to send to Europe and other countries. at all times sell as low, and many articles lower than they can be obtained elsewhere, of equal size and quitig. The Extra-Large sized Trees, which are in a bearing state, have required many years to bring them to their present size, and are such as can seldom be obtained elsewhere, and are worthy of the special attention of those who desire Fruit Trees for i-mediate bearing, whereby many years are gained in the planting of Orchards and Gardens. The Extra-Large sized Ornamental Trees and Shrubbery, including the Large sized Evergreen, are worthy the particular attention of those who desire to promptly embedlish their Lawns, Avenues, and other Grounds, and many of them are especially adapted to Cemeteries. None of the Apples and Pears, or other Fruit Trees, are grafted on pieces of roots, as has been inconsiderately the practice elsewhere.

We do not here, a. is customary and necessary in the western Nurseries of our State, cover three-fourths of our grounds with Apple Trees and other common Pruits; but in accordance with the general demands of our Correspondents, we embrace an assortment very enlarged and comprehensive. It will consequently be seen that of Ornamental Trees and Flowering Shrubs, Evergreens, Roses, Climbers, Bulbons Flowers, and Herbaccous Flowering Plants of every class, there is no comparison between the collections in the Flowing Nurseries and some distant ones, which have been unduly puffed *for their extent in acres*. Distant purchasers, and especially those located in the hew and rising States of the North and West, should not allow themselves to be deceived by representations cunanting from interveted sources, but should make it an indispensable duty to visit and inspect the Long Island Nurseries to their perfect satisfaction.

Packing and Shipping.—All trees, &c., are labelled and packed in a superior manner, in matted bales or boxes, so that it is scarcely possible that any can be injured; and we charge for the packing barely the actual cost. We feel as-ured that we save to purchasers more than ten per ceut. by our superior packing, by which even the smallest articles go safely. The cost of packing an ordinary bundle is 75 cents; those of extra size, or quite small, in proportion. We ship the packages, cr send them by Railroad, Transportation Lines, or Express, precisely as ordered; but it is to be distinctly understood, that after being correctly labelled and shipped by us, they are at the *risk of the purchaser*, and the forwarders alone are to be held responsible therefor. Persons ordering are requested to give explicit directions as to the route by which they wish their goods forwarded; and if the place of their residence is not a Railroad or Express Station, to name the nearest Station to them, and mention some person at such Station to whom the goods can be consigned. Remittances may be made by Check or Draft; but if United States Notes are sent, they should be forwarded by Express, and the Agent's receipt therefor be sent to us.

Orders for Trees, &c.-Orders should be sent direct to us, and it is particularly requested that they be sent as early in the scason as practicable, that the greater attention and care may be given to their execution. It is indispensable that every order be plainly and regularly made out, naming the edition of the Catalogue selected from, and also that plain directions, stating how the packages are to be marked and forwarded, should immediately follow the order, and *that these be entirely distint from the letter*. It is also necessary to state in the orders for Fruit Trees, whether Standards or Dwarfs are wanted, and on what stock each kind is preferred. When any variation is allowed as to the precise kinds, by substituting others equally good or better, or when the selection of all or part of the varieties is left to us, we will exercise our jndgment for the interest of the purchaser ; and we cultivate none but the choicest varieties. If an error of any kind should occur, we desire to be promptly notified, that it may be rectified at once.

Spectmen Trees.—Whenever specimen Trees are ordered by any Nurseryman or other person, they will be charged at the retail prices without discount, the extra time required to make such selections being important to us, and their accuracy of vital importance to the purchaser. In fact, many of the New and Rare Varieties are worth five times the price demanded, they having been obtained with great trouble and expense.

Terms.-For all amounts less than \$50, *Cash* with the order, or to be collected by the Express on delivery.

For amounts over \$50, Cash, or a suitable reference in New-York. Liberal arrangements will be made with Nurserymen and Venders, who are invited to call, or to address us by mail.

Visitors.—Visitors are at all times welcome to our grounds, in which something of interest is to be seen at almost any season. The village of Flushing is accessible ten or more times a day, by Steamboat and Railroad, from Fulton Market and James Slip, New-York, and by carriage from Hunter's Point, opposite 34th Street. One of the Nurseries adjoins the R. R. Dépôt, while another is next to the Steamboat Landing, and the third and largest is about a mile from the village, in a southerly direction.

ORDERS FOR EUROPE, CALIFORNIA, ETC.

WE annually ship large numbers of Trees, Plants, Bulbs, Seeds, &c., to Europe, California, Oregon and other distant parts of the world, and have such experience in packing for long voyages that the articles arrive at their destination in the best of order.

Persons desiring articles sent to foreign countries, therefore, need have no hestation in ordering, as our perfect system of packing insures success.

We subjoin a note received from the Director of the Prussian Garden at Potsdam, a short time since, to show the excellent condition in which our articles arrive abroad :--

" POTSDAM, le 20 Juin, 1862.

" Messieurs Prince et Cie,-

" Messieurs : J'ai l'honneur de vous annoncer, au nom de Monsieur Lenné, Général Directeur des Jardins du Roi de Prusse, que les vignes expédiées par vous, sont bien arrivées a Polsdam.

" M. Lenné fait vous dire les compliments les plus sincéres; il est bien enchanté de cette riche collection—de ces beaux exemplaires, et il me fait vous dire qu'il ne tardera pas de vous donner des commissions d'autres choses.

" Messieurs, j'ai l'honneur de me signer,

" Votre serviteur,

REUTER."

TRANSLATION.

" POTSDAM, June 20th, 1863.

" Messrs. Prince & Co.,---

"GENTLEMEN: I have the honor to inform you, in the name of Mr. Lenné, General Director of the Gardens of the King of Prussia, that the vines forwarded by you have arrived in good order at Potsdam.

 $^{\prime\prime}$ Mr. Lenné presents to you his most sincere compliments; he is enchanted with this rich collection, with these splendid specimens, and he desires me to say that he will not delay in sending you orders for other articles.

" I have the honor, gentlemen, of subscribing myself,

" Your obedient servant,

REUTER."
